2004-12-04

Second-year M.Sc. student in Information Technology at Chalmers University of Technology. Strong foundation in programming (Python, object-oriented programming, and data structures) as well as mathematics. Seeking a summer internship in IT, software development, or technical systems.

Work Experience

- Leos lekland, Mölndal

2021 → 2023

Activity & service staff – responsible for the birthday party department: planning, coordination, customer service, teamwork and problem-solving.

- ICA nära, Pedagogen park

Mars 2023 → present

Cash handling, deliveries, and responsibility for opening and closing shifts – customer focus, service, structure and efficiency. Independent responsibility for the store during duty shifts, as well as teamwork.

Education

- Upper secondary school, Hulebäcksgymnasiet Mölnlycke

August 2020 → May 2023

Technology and design

- Master of Science in Engineering, Information Technology, Chalmers University of Technology

September 2024 → present

Currently: second-year student

Completed courses listed below:

- * Discrete mathematics 7,5 credits
- * Introduction to computer engineering 7,5 credits
- * Fundamentals of program development (Python) 7,5 credits
- * Continuation course in programming in Python 7,5 credits
- * Linear algebra 7,5 credits
- * Calculus 7,5 credits
- * Design and implementation of graphical interfaces 7,5 credits
- * Object oriented programming and design 7,5 credits
- * Mathematical statistics and discrete mathematics 7,5 credits
- * Data structures and algorithms 7,5 credits
- * Multivariable analysis 7,5 credits
- * Object oriented programming project 7,5 credits

★ Other information

December 2022, Driving license: Category A

Technical skills:

Basic knowledge of the programming languages Python & Java.

Experience with Git-based projects, including repositories commits, branches and merges.

Good working knowledge of Microsoft Word, Teams and PowerPoint.
